Endangered Species

Not the models. The photographer.

Every time you buy stock from one of the Giants, you shorten the life expectancy of an artist. Photography and illustration are becoming endangered ways of life.

Mira is committed to the artist. Through Mira, photographers and illustrators are protecting their most valuable asset: their creativity. And that means giving you their best.

So the next time you buy, save a species! Visit Mira.com.
Photographer, illustrator...buyer? It's a small world.
